## Continuation of 5 Other:

The Applicants are thanked for the 'Response to Restriction Requirement' filed 16 November 2007. However, at least one non-compliance error has been discovered in the aforementioned response, requiring attention before examination may continue.

As explained in the Restriction Requirement (mailed 16 October 2007), "Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added" (see Page 5, Last Paragraph of the Restriction Requirement mailed 16 October 2007).

The 'Response to Restriction Requirement' filed 16 November 2007 states, "Applicants hereby confirm election of Species VI as amended. Within Species VI, the Applicants elect sub-species B, 1, and b. The election is made without traverse. Non-elected claims 6, 7, 20, 24, 33, 34, 40, 56 and 65 are hereby cancelled" (see Page 14).

No listing of claims readable on the elected species has been expressly provided. The Applicants are thanked for the statement that, "Non-elected claims 6, 7, 20, 24, 33, 34, 40, 56 and 65 are hereby cancelled." However, this statement does not make clear whether claims 6, 7, 20, 24, 33, 34, 40, 56 and 65 are the only non-elected claims -- or whether there remain other non-elected claims still pending.

For clarity of the prosecutorial record, the Applicants are respectfully requested to expressly identify all pending claims which are considered drawn to the elected species.

By such reasoning, this Notice of Non-Compliance is deemed necessary and proper at this time.

Please note: The response has not been checked to the extent necessary to determine the presence of all possible non-compliance errors. If additional issues of non-compliance are discovered at the time of a subsequent response, yet another Notice of Non-Compliant Amendment will be necessitated. Applicants' cooperation is requested in correcting any other errors of which applicants may become aware.
